

# Why Agencies Love Our Numbers

## Stand Out...

"I utilize numbers from 800response as a means of getting new business. When prospects ask me how I differentiate myself from the crowd, I blow them away with a fresh approach centered on a vanity number perfect for their business. Since my campaigns are designed with your numbers in mind, the results are great and I have a happy client."

*-Dan Walters, Automotive Markets*

## Consistently Solid Leads...

"One of my clients has been running ads featuring 1-800-NEW-CREDIT every month and consistently averages 400 to 500 solid leads. A memorable phone number makes the difference between average advertising campaigns and fantastic advertising campaigns - there's really no comparison."

*-Bill Park, Creative Broadcast Concepts, Inc.*

## Top of Mind...

"My client's vanity 800 number is outstanding at getting into peoples' minds and sticking. I encourage any business who is actively advertising to use a vanity 800 number. They'll get more response and make the most out of their media budgets,"

*-Jon Urena, Impact Advertising & Consulting, Inc.*

## Maximize ROI...

"Since placing 1-800-NEW-LOOK in TV spots my clients' practice is experiencing significant growth in response activity. And, by monitoring the tracking reports we can optimize our media budget and spend more advertising dollars on the stations and time-slots that generate the most leads for the practice."

*-Mike Burney, DoctorsEdge Marketing Group*
